I call on the NT govt. and all politicians:

for the following:

- Removal of the sexuality exemption (37A) from the Anti-Discrimination Act
- Inclusion of intersex people in the Act
- Introduction of Anti-Vilification laws, and protections against hate speech in relation to sexuality and gender identity be included in these laws
- IVF and other artificial reproductive technology be included in the Act so this service cannot be refused to LGBTQI Territorians.

Kind regards,
