## **Reasons**

### **Background**

3. On 3 January 2019 pursuant to section 58 of the Act, the Applicant lodged an application with the Director-General for the grant of a special licence to permit the sale of liquor to patrons attending the 2019 NT Barramundi Classic at Banyan Farm Tourist Park on Woolianna Road, Daly River in the Northern Territory.
4. The NT Barramundi Classic is a catch, measure, tag and release fishing tournament where competitors score points for Barramundi caught. The fishing tournament is well established having being run since 1982, allowing competitors to fish in the Daly River whilst staying at Banyan Farm Tourist Park for the week of the tournament.
5. Specifically, the Applicant is seeking to sell liquor for the following hours:
  - Monday, 29 April 2019 from 17:00 hours to 02:00 hours on Tuesday, 30 April 2019;
  - Tuesday, 30 April 2019 from 17:00 hours to 23:59 hours;
  - Wednesday, 1 May 2019 from 17:00 hours to 23:59 hours;
  - Thursday, 2 May 2019 from 17:00 hours to 23:59 hours;
  - Friday, 3 May 2019 from 17:00 hours to 23:59 hours;
  - Saturday, 4 May 2019 from 17:00 hours to 23:59 hours
  - Sunday, 5 May 2019 from 17:00 hours to 02:00 hours on Monday, 6 May 2019;
6. In addition to the proposed licensed area, the Applicant requests they be permitted to sell liquor to competitors of the tournament during the hours of 17:00 to 22:00 hours, for competitors to consume on the Daly River, in their boat the following day.
7. The Applicant proposes to sell liquor to patrons from a bar selling light, mid and full-strength beer, wine and spirits. Further, the applicant indicates non-alcoholic drinks and free water will be available and meals will also be provided each evening.
8. Including competitors and committee members of the Applicant, the Applicant estimates approximately 200 persons will be in attendance throughout the tournament.
9. The Applicant confirmed that a registered nurse will be in attendance throughout the tournament to administer any first aid.

10. In relation to private security and crowd controller arrangements, the Applicant indicates licensed private security personnel and crowd controllers will not be engaged to provide services at the tournament. Instead the nominee, volunteers and committee members shall monitor the general behaviour of patrons throughout the tournament. These arrangements are unchanged from those identified in last year's special licence application for the same tournament and the liquor licence granted.
11. The Applicant has previously been issued special licences for past NT Barramundi Classic tournament. The Commission has been informed by Licensing NT that there have been no compliance issues with respect to the Applicant for previous tournaments.

## Consultation

12. As this is an application for a special licence there is no requirement under the Act for advertising of such an application, nor is there provision for formal objections to be made concerning such an application. Despite this, a "usual practice" has developed for the Director-General to consult with relevant stakeholders concerning the application, namely the Department of Health (**DOH**), NT Police, Fire and Emergency Services (**NT Police**) and NT Fire and Rescue Service (**NTFRS**) and seek their comment.
13. With respect to this application:
  - a. The NT Police had no objection.
  - b. The NTFRS had no objection.
  - c. The DOH advised they had "no adverse comment" but requested consideration of patron and community safety and amenity when determining the application; the venue clearly displays signage to delineate non-smoking areas from the smoking areas; and remind the applicant that food and drinks are not permitted to be taken into any identified smoking area.

## Assessment of the Application

14. As previously noted, this is an application for a special licence under section 58 of the Act. That section is within Part VI of the Act. Usually the Director-General would determine a special licence application under a delegation from the Commission where patron attendance is less than 500. However, in addition to on-premise consumption, the Applicant is also seeking authority for the sale of liquor for consumption on the river away from the licensed premises ie, 'take away liquor'.
15. Section 24(2) of the Act states that "no new take away licences may be issued during the moratorium period of 5 years". Further, if the condition for the provision of take away liquor were granted, would the applicant be required under section 31A of the Act to use the approved scanner and determine whether an individual wanting to purchase take away liquor is prohibited in doing so and on the banned drinkers register?

16. Due to concerns over these issues, the Director-General declined to determine this matter in accordance with the Commission's delegation pursuant to section 37 of the *Liquor Commission Act (NT)* and referred the matter to the Commission to decide.
17. As outlined by the Commission in a previous decision of 19 April 2018 – Application for Special Licence – Palmerston Game Fishing Club Inc, the Commission determined that an application for a special licence under Part VI of the Act is not caught by the moratorium under section 24(2) because of the Act's construction that's confined to Part III licences only.
18. Further in that same decision, the Commission found that section 31A of the Act only applied in respect to Part III licences and would not apply to take away sales granted under a special licence.
19. As noted above, this is an application for a special licence under section 58 of the Act within Part VI of the Act. There are no specific criteria prescribed by the Act for consideration of an application for a special licence. Special licences exist under Part VI of the Act and are therefore not part of the definition of "licence" pursuant to section 4 of the Act, namely "a licence issued under Part III" of the Act.
20. As a result, it has previously been determined by this Commission that an application for a special licence is *not* a licence with respect to which I am bound to apply the public interest and community impact test under section 6 of the Act.
21. However, pursuant to section 3(3) of the Act, the Commission when "exercising a power or performing a function under (the Act) must have regard to the objects of the Act and must exercise the power and perform the function in a way that is consistent with those objects".
22. Section 3 of the Act identifies the "objects" as follows:
  - "(1) The primary object of this Act is to regulate the sale, provision, promotion and consumption of liquor:
    - (a) so as to minimise the harm associated with the consumption of liquor; and
    - (b) in a way that takes into account the public interest in the sale, provision, promotion and consumption of liquor.
  - (2) The further objects of this Act are:
    - (a) to protect and enhance community amenity, social harmony and wellbeing through the responsible sale, provision, promotion and consumption of liquor;
    - (b) to regulate the sale of liquor in a way that contributes to the responsible development of the liquor and associated industries in the Territory; and
    - (c) to facilitate a diversity of licensed premises and associated services for the benefit of the community."

23. As a delegate of the Commission, I am also bound to have regard to the objects of the Act when determining this application.
24. The Applicant is seeking similar conditions for a special licence to that granted by the Director-General in 2018 which licence also included take away liquor. Last year, the Director-General permitted the sale of take away liquor during the tournament between 17:00 to 22:00 hours such that “a competitor in the tournament may purchase a maximum number of 6 unopened cans of light or mid-strength beer per day, for consumption on a boat the following day”.
25. The limit of 6 light or mid-strength beers tends to encourage a more responsible level of alcohol consumption than might be envisioned if the competitors were left entirely to make their own arrangements.
26. As mentioned above, no objections have been lodged by the stakeholders to this special licence application. It is apparent that the NT Barramundi Classic has been well coordinated and appropriately managed in previous years. This also demonstrates compliance with the special licences granted in previous years and an absence of complaints and concerns from the community regarding the tournament.
27. It is as a result of the matters outlined above that this Commission is, on balance, satisfied that the objects of the Act have been sufficiently addressed and the Commission has for the reasons outlined decided to grant the special licence as set out at the start of this Decision Notice.

### **Notice of Rights:**

28. Section 120ZA of the Act provides that a reviewable decision is a Commission decision that is specified in the Schedule to the Act. A decision to issue a special licence subject to condition pursuant to section 59 of the Act is specified in the Schedule and is a reviewable decision.
29. Section 120ZC of the Act provides that a person affected by this decision may seek a review before the Northern Territory Civil and Administrative Tribunal. Any application for review of this decision must be lodged within 28 days of the date of this decision.
30. For the purpose of this decision, and in accordance with section 120ZB(1)(b) and (c) of the Act, the only affected person is the Applicant.
